HOW TO USE THIS INDEX

This is a single alphabetical index. When searching for an original article, look under the first significant word in the title. Authors are listed alphabetically, with an asterisk (*) to indicate reference to an original article. Editorials are indexed by first significant word of title or by subject; book reviews, by title or subject but not my author. City of residence is indicated for authors of original articles.

If you do not bind your JOURNALS, use the table of pages (below) to find the month of issue to which any page citation refers.

The annual reports of the committees and officers of the Society and the Transactions of the annual meeting appear in the July issue.
